

RFI: Wood heating source repair and replacement in Siskiyou County
Attachment B: Technical Reference Manual Material Specifications

These are the material specifications for Heating repair or replacement: Wood Stove/Fireplace Insert as listed in the CSD Technical Reference Manual, effective 7/1/2023 (section 9.10 on page 4-44)

Wood Stove/Fireplace Insert

Wood Stove/Insert

(a) Only new wood stove/insert manufacturer–approved, factory-built, and laboratory-listed equipment and other hardware shall be installed.

(b) All wood stoves/inserts shall bear a permanently-affixed label stating “For use with solid fuel only.”

(c) Where applicable, any installed wood stove/insert shall comply with the EPA Phase II emission limits and shall bear temporary label(s) certifying it conforms to EPA emission standards.

Units Installed in Mobile Homes

Units installed in mobile homes shall:

(a) Draw CVA from outdoors and

(a) Bear a permanent manufacturer’s label stating the wood stove/insert is approved for use in mobile homes

Chimneys, Connectors, and Components

(a) Chimneys and connectors must be factory-built, laboratory-listed, Class A–types specified by the manufacturer, including:

(a1) A ceiling support package when a vent connector is used

(a2) An insulation shield when penetrating an attic

(a3) A chimney cap and spark arrestor
